

National Geographic Magazine Historical Archive, 1888–2020

National Geographic Magazine is the official journal of the National Geographic Society (NGS). As one of the world's largest nonprofit educational and scientific organizations, NGS is renowned for producing superior photojournalism and cartography. Its iconic, award-winning magazine provides unparalleled in-depth coverage of global cultures, nature, science, technology, and the environment.

DISCOVER ENGAGING AND USEFUL INFORMATION FOR RESEARCHERS OF ALL LEVELS

Engaging articles, stunning photos, detailed maps, and remarkable first-person accounts of epic exploration and discovery. That is *National Geographic Magazine*. Founded in 1888, the magazine brings history to life, and documents life on Earth and beyond. Now libraries have access to the complete archive of the magazine—every page and every photograph from 1888 to 2020.

Researchers of all levels can find a wealth of information in this fascinating collection that covers nearly every area of scholarship and research. Articles examine arts and culture, global events, nature, science and medicine, technology, anthropology, geography, women and gender, ecology and the environment, and more.
